The board reports that hazing is now entirely a thing of the past, and it would seem to have been permanently stamped

that there has been no death among the

cadets from disease of any kind in more

than twelve years, and the corps of cadets

is in a high state of efficiency, with the moral tone of the best.

The Board's Recommendations.

Some of the recommendations are that

the superintendent have the rank of a

brigadier general; that interest be allowed

upon deposits of cadets' money; that the

enlisted men at the post be allowed 50 cents

per diem extra pay; that Constitution Island, opposite the post on the Hudson, be purchased for drill purposes and target ranges at a cost of \$150,000; that two additional tactical officers of the rank of major

be added to the academy staff; that the

cadets be given regular target practice, winter and summer; that they be given a company's allowance of ammunition ror

big gun practice; that a school be estab-lished for children of officers of enlisted

men; that periods of physical probation for cadets be abolished, and that findings of

medical officers shall no longer be disregarded, so as to maintain the highest

standard of physical perfection.

The board declares that the academy is

in the hands of a most zealous and efficient superintendent (Col. Hugh L. Scott); that

he has the earnest and hearty co-operation of high-class officers and assistants in all
